WINS FIGHT IN THE FIRST ROUND

Tommy Burns Knocks Out the Champion of Ireland.

ONLY ONE BLOW IS STRUCK

American Pugilist Lands on Jem Roche's Jaw and the Irish Fighter Goes to the Mat for the Count. Crowd Bitterly Disappointed.

Dublin, March 18.—Tommy Burns, the American heavyweight champion, made short work of Jem Roche, the Irish champion, in their contest at the Theater Royal for the world's championship. Practically only one blow was struck, Burns knocking Roche out when hardly more than a minute of the first round had been completed by a short hook to the jaw. So quickly did the end come that the great crowd which filled the theater in the expectation of seeing the Irishman put up a good fight for the title, hardly realized what had happened.

When the men entered the ring it was evident that the sluggish Roche was no match for the more experienced Burns. They sparred for less than a minute, the Irishman acting altogether on the defensive and the American endeavoring to find an opening. Then Burns feinted, quickly put a short sharp right to the jaw and Roche went down. He was badly dazed and although he struggled to regain his feet was unable to do so before the fatal ten was counted.

Immediately after the count Roche got to his feet but staggered about the stage. When he had recovered himself he went over smilingly to congratulate the winner. He had met a better man.

The fight was for a purse of \$7,500, which was put up by a syndicate, of which Richard Croker, the former Tammany leader, was a member, and a side bet of \$2,500. In addition Burns had \$7,000 on himself at odds of 3 to 1. The ringside betting was 7 to 2 on the American.

Only One Blow Struck.

The blow which decided the fight was the only one of any consequence during the minute and thirty-eight seconds the men were in the ring. The crowd which shortly before had cheered Roche to the echo and greeted him with airs "From Wexford" were so taken back that after a few angry hisses they went quietly out of the theater.

Burns said of the fight that it was the easiest he ever had. He went in, he added, to make it as short as possible, as he had too much money at stake at long odds to take any chances. He had expected, however, that the fight would go a few rounds, although he was never in doubt as to the final result.

Burns stated that he was willing to give Roche another chance, if sufficient inducements were forthcoming. He is now considering an offer provisionally made by the Dublin syndicate for a match with "Bill" Squires under the same terms as that with Roche.

The scene in the theater was a remarkable one. There were seats for 3,000 and every one was occupied. It was a most enthusiastic crowd and Roche received a great reception when he entered, smiling and with confident air. The orchestra struck up "The Boys of Wexford," the spectators joining in the chorus. Burns, who had been watching the preliminary bouts, strolled casually to the ring to the air of "The Star Spangled Banner." He also was well received, but the reception of Burns was insignificant as compared with that given Richard Croker when the master of ceremonies announced that it was largely through the efforts of the former Tammany leader that Roche was able to enter the contest. Mr. Croker, who was in a box at the ringside, had to acknowledge the tremendous cheering that greeted him.

Burns, when questioned whether he would meet Roche or Squires again, replied:

"I will fight anyone if there is enough money in sight."

Girl Sent to Prison.

Xenia, Ill., March 18.—Katherine Trainor, the girl who killed Sam Roberts, her lover, on the public square here Sunday night, was convicted of murder in the circuit court and sent to the Joliet penitentiary for twenty-five years. The proceedings were concluded in less than thirty-six hours after the killing. The young woman took the whole procedure coolly, saying she was glad she killed Roberts and did not mind the sentence.

PROTECT FOREIGNERS

British and German Cruisers at Port au Prince.

PANIC AMONG INHABITANTS

Follows Salute From Guns of the English Warship—Undercurrent of Anxiety Apparent in the Haytian Capital.

Port au Prince, March 18.—The British cruiser Indefatigable and the German cruiser Bremen have arrived here under orders from their governments to give full protection to any foreign residents in Port au Prince, in case their lives or interests are threatened. An American warship is expected to arrive here at any moment. At present the city is quiet, but there is an undercurrent of anxiety, as evidenced by the fact that a veritable panic was caused by the booming of a heavy gun on the British cruiser when she came to anchor in the port. The Indefatigable announced her arrival by three cannon shots, and the detonations almost terrorized the people. Surprised by the sudden alarm, officers and soldiers alike rushed precipitately to their posts; women and children ran about hither and thither, in seeming despair, crying hysterically, and it was some time before they could be reassured and calmed.

Positive denial is made by the Haytian officials of the reports that other executions have taken place than those on Sunday morning, when ten or twelve conspirators found, according to the government's statement, with arms and ammunition for revolutionary purposes in their possession, were shot to death.

Insurrectionists to Be Deported.

Under a decision taken by the council of ministers the government authorized the sending on board of warships and out of the country the authors of the last insurrection, who have taken refuge at the French, German and Spanish consulates at Gonaives.

The government reserves for itself, however, the right to prosecute before properly appointed courts any person who hereafter is implicated in uprisings, this action on the government's part being conditional on the representatives of the foreign nations agreeing not to give asylum in their respective consulates in case of further revolutionary movements being attempted. This measure of pacification, providing it is carried into effect, would contribute greatly to putting an end to agitations.

General Celestin, the minister of war, has returned to Port au Prince at the head of his troops, after having put down the revolutionists at Gonaives. He made a statement in which he denied absolutely that the government entertained hostile sentiments towards foreigners. President Nord Alexis and his ministers also gave assurances of the utmost good feelings towards all foreigners who were pursuing their duties peacefully in Hayti.

While conditions have been disturbed here for a considerable length of time, reaching their climax during the past week, there appears to be no present danger to foreigners residing here. The great majority of them seem to be attending to their business affairs in perfect security. The president and the government have proclaimed that order will be maintained at whatever cost.

May Demand Resignation of Alexis.

Paris, March 18.—A special dispatch received here from Port au Prince states that the representatives of the foreign powers there have decided that unless there is a rapid settlement of the present crisis they will formulate a demand for the resignation of President Nord Alexis and the formation of a provisional government, to be followed immediately by the elections.

STUDENTS OUT ON BAIL.

Business Men Go on Bond of Alleged Rioters.

Ann Arbor, Mich., March 18.—All the University of Michigan students arrested in a riot at the Star theater are at liberty, but fifteen of them had to furnish \$1,000 bail each, after being led into Justice Doty's court and back to their cells like hardened criminals, handcuffed and under a heavy police guard. Three students pleaded guilty on a charge of loitering and were fined \$4.65 each. The fifteen who gave bail will have their examinations Friday morning on a charge of rioting. As soon as the boys were arraigned and their bail was fixed, local business men came to their aid with offers of bail, the required amount being promptly furnished in each case.

There are no indications of a recurrence of the disturbance.

"MICHAEL'S"

"MICHAEL'S"

IRISHMEN OF NEW YORK.

Hold a Big Parade in Honor of St. Patrick.

New York, March 18.—Irishmen of New York to the number of 35,000 marched forth here, making the greatest demonstration in honor of St. Patrick that this city has seen. Of the total, 25,000 paraded in Manhattan and the others in Brooklyn. The feature of the Brooklyn celebration was the dinner of the St. Patrick society at the Pouch mansion in connection with which a reception was tendered Governor Hughes. The governor was given an ovation. Owing to other dinner engagements his speech was necessarily brief, but he shook hands with the whole party.

The turnout in the Manhattan parade brought in line forty-one divisions of the Ancient Order of Hibernians, thirty-two organizations representing Irish county societies of Greater New York, forty-eight benevolent orders and twenty-six Clan Na Gael clubs. Added to these were the Sixty-ninth regiment of New York and several regiments of Irish volunteers. Interspersed were bands with out number and as the green bedecked line swung through Fifth avenue the windows of the mansions rattled with "The Wearing of the Green" and other stirring melodies. Thousands of banners bearing the harp and Shamrock fluttered in common with the Stars and Stripes from housetops and business blocks.

An occasional shower fell upon the heads of the marchers, but failed to dampen their spirits. There was feasting and singing and dancing all over town. Of the many dinners of note the most elaborate was that of the Friendly Sons of St. Patrick at Delmonico's. The guests of honor were Secretary Taft and Governor Hughes.

Amateur Boxer Killed.

Philadelphia, March 18.—In an amateur boxing tournament following the regular performance at the Bijou theater here, Willie Robinson, aged nineteen years, was killed by a blow over the heart while boxing with Charles Wolf of the same age. The boys were friends.

Primary Election at St. Paul.

St. Paul, March 18.—The city primary election here resulted in the nomination of Joseph McKibben as the Republican candidate for mayor and Daniel W. Lawler as the Democratic candidate.

SENATOR WHYTE DEAD

Veteran Maryland Statesman Dies at Baltimore.

SUCCUMBS TO ERYSIPELAS

Venerable Solon's Long Career Ends in Peaceful Manner He Had Desired. Had Been in Public Life for Many Years.

Baltimore, March 18.—United States Senator William Pinckney Whyte died at his home in this city.

Senator Whyte was taken ill while in Washington last Thursday and returned here as soon as possible. Erysipelas developed and his condition became worse, although his physicians gave out encouraging statements until Tuesday afternoon. The senator suffered a sinking spell, but recovered wonderfully and was conscious until the final convulsion that ended in his death. The end was peaceful and is said to have been precisely such as he had expressed a wish for.

Senator Whyte, who was affectionately referred to and addressed as "Governor" by nearly every one who knew him, had been in public life since in 1847. He was born in this city Aug. 9, 1824, and was the son of Joseph and grandson of Dr. John Campbell Whyte. His maternal grandfather was the famous lawyer and orator, William Pinckney. He engaged in business for two years, following which he graduated at law at Harvard in 1845. His political career may be said to have begun with his election to the house of delegates of the Maryland legislature of 1847-48, since which time he had held nearly every office in the gift of the people of his state. He was state comptroller 1853-55 and ran for congress in 1857, but was defeated. He was a delegate to the national convention of 1868 and the same year was appointed United States senator to fill the unexpired term of the late Reverdy Johnson upon the latter's appointment as minister to Great Britain. He was governor of Maryland 1871-74 and in the following year was elected United States senator. He became mayor of

Baltimore in 1881 and attorney general of Maryland in 1887. In 1900 he became city solicitor. The then governor, Edwin Warfield, appointed him United States senator in 1906, to fill the unexpired term of the late Senator Arthur P. Gorman, and the current legislature elected him Senator Gorman's successor for the term ending March 3, 1909. He was the last survivor of the senators who voted against the Fifteenth amendment to the United States Constitution.

FIRES UPON A CROWD.

Ohio Man Shoots Two Other Men and Attempts Suicide.

Cleveland, March 19.—William Krueger, twenty-one years of age, opened fire upon a crowd of men and women in a restaurant and instantly killed Edward Draudt, forty years old, severely wounded James Barr and then attempted to commit suicide. After the shooting the young man went to the sidewalk and there turned the revolver against his own head and fired. It is believed Krueger will die.

Previous to the shooting Krueger is said to have stood at a side door leading into a saloon and from this vantage point scanned the faces of all the occupants of the restaurant. As Barr passed him in the doorway, the police say, Krueger was jostled and opened fire upon Barr and then turned the revolver aimlessly upon the crowd. A panic ensued, men and women seeking shelter beneath the tables and lunch counter.

It is believed by the police that Krueger was waiting for some particular man and woman who he thought may have been in the restaurant.

Three Killed by Explosion.

Craond, Wis., March 18.—The planing mill of George Kemp was completely wrecked and burned by an explosion in which three men were killed. The dead are George Kemp, owner of the mill; the engineer and another employee. The cause of the explosion is not known.

Bryan the Chief Orator.

Chicago, March 18.—William Jennings Bryan was chief orator and guest of honor at the St. Patrick's day banquet of the Irish Fellowship club here. His speech, which was on "Signs of the Times," came at the end of a lengthy programme and it was far past midnight when he began.

WEATHER FORECAST

Probably snow and colder tonight, Thursday fair.

The following are the weather conditions at 7 a. m. today and this date last year at various points on the Minnesota & International railroad as shown by the record at the general offices of that road:

Town	1908	1907
Brainerd	4 Clear n. w.	15 Cl. Calm
Walker	5 " "	13 " "
Bemidji	5 " "	18 " "
Blackduck	5 " Calm	17 " windy
Kelliher	5 " "	20 " "
Northome	5 " "	17 " "
Big Falls	5 " "	16 " "
Int'l Falls	5 " "	16 " "

The robin and groundhog have each had their inning and still spring fingers.

"In God we trust" goes back onto the coins of the United States according to a vote of the house. You will know a dollar when you meet it.

If the owner of Dan Patch gets into the gubernatorial game it is hinted that he will "go some." It will be an advertisement for stock food at least.

JOEL HEATWOLE's friends are waiting for him to say the word, and then again a good many of the fellows who are not so friendly are just as anxious. Some one is always waiting to take a fall out of some one else—politically or otherwise.

IN ORDER to save Harry Thaw from the gallows it was necessary to prove that he was insane. Evelyn has taken advantage of Harry's weakness and will get a divorce on the strength of the insane plea being true. Great world.

THE speech of Congressman Lindbergh on currency and finance has been published in the Congressional Record and several copies of the same have been received in this city. The entire speech is of considerable length, covering something like 13,000 words, that part relating to emergency currency having been published in this paper in January.

EDITOR HAMILTON, of the Aitkin Republican, has got himself into prominence that is liable to land him in the legislature through his able efforts at the editorial meeting in January. The moulders of public opinion in the north half of the state seem to think he is made of the right stuff to occupy a position where the peoples' rights are to be protected.

IF THE efforts of the iron companies are successful the United States Steel Corporation and the Oliver Mining Company will be granted a reduction of \$30,000,000 on the valuation of the Oliver properties in this state. Representatives of the iron interests have already been before the tax commission and the independent companies are to be heard on Tuesday next.

THE date for the democratic county conventions throughout the state to select delegates to the state delegate convention has been fixed for May 9th, the primaries to be held May 6th. The chairman of the democratic state central committee has given out the dates, the matter having been left to him. Now the struggle between the Bryan and Johnson forces will begin—and Crow Wing is listed as a Bryan county.

THE city of Red Wing is liable to be wiped off the map at any moment, according to the Republican. Contractors have stored in an old tunnel in the bluff adjacent to the city enough dynamite and giant powder to tear away the entire bluff and destroy the city, and the authorities have been called upon to remove the same to a place of safety before through carelessness or fecklessness the explosives are ignited and a terrible disaster recorded.

616 Front St.

If you would have the savor of the sea brought to your table daily, use Sealshipt Oysters freely—none nearly so good—nothing more satisfying—we get 'em fresh constantly at Bane's. 242tf

MINERS AFTER ITALIANS.

Lynching Likely to Occur in West Virginia.

Elkins, W. Va., March 18.—Surrounded by a posse of miners thirsting for revenge for the murder of two of their number, two Italians, Joe and Lewis Farro, are in danger of being lynched. Walter Fogg and G. W. Averd, miners employed by the Davis Colliery company at Copen, were stabbed and shot to death following a dispute over a bill which the Italians claimed was owed them. The assailants made their escape before the associates of the victims organized. The posse ransacked the hills and the neighborhood of Copen all night without avail, but leaders believe they had closed in on the Italians five or six miles from Copen. The temper of the miners is such that short shrift will probably be the fate of the Italians should they be captured.

Hart Wins on a Foul.

Hot Springs, Ark., March 18.—Before a large St. Patrick's day crowd, Marvin Hart of Louisville was awarded the decision in the fourth round over John Wille of Chicago on a foul. The men had agreed to break clean. Immediately following a clinch and as Hart was stepping back unprotected Wille swung a hard right to the ear, sending Hart sprawling. Hart was unable to respond and his ear may be seriously injured.

Small Riot in Chicago.

Chicago, March 18.—An effort by the Chicago City Railway company to enforce a rule excluding newsboys from the "pay as you enter" cars of the company caused a small sized riot on Wabash avenue. Several score of paper vendors "rushed" the cars and attempted to board them. A number of free fights resulted, the police were called, and several arrests made. No one was seriously hurt.

FIGHT AGAINST DEATH

Dying Man Played Cards Two Weeks to Keep Himself Alive.

FRIENDS KEPT GAME GOING.

Aged Illinoisan's Mind Diverted With Penuche Till His Son Came From Belgium to Say Farewell—Lived to Enjoy Last Reunion He Determined to Have.

Joseph Hufker of Alton, Ill., who died recently after living long enough to see the face of his son Louis, who started on Washington's birthday from a college in Belgium, where he was studying for the Roman Catholic priesthood, had thirteen children, and there had not been a family reunion for thirteen years. The father was told by his physician he was dying from cancer of the stomach and could not live more than a week. "I will live long enough to hold another family reunion," he told the doctor, who shook his head.

Hufker ordered a message sent to his son to leave his studies and hasten across the ocean to see him, and a message came back that the father's command had been obeyed. Then Hufker settled himself to the task of living until the time would come for his son to reach his bedside. The doctor told him that he must keep up his spirits if he would live the time desired.

Penuche was his favorite card game, and he was an expert who was always able to uphold his championship claims. He invited the neighbors to come in and take the places of his children when they would become tired of playing. Mr. Hufker seldom slept because of the intense pain in his stomach. Seated in bed, he would play hour after hour. To add zest to the contest he would urge his opponents to play better and try harder to beat him, but he remained the unbeaten champion of this game with death. A dozen decks of cards were worn out.

Hufker played his game so well that he stayed the hand of death one week, then ten days, then two weeks. The doctor ceased making his visits, saying it was no use to attempt anything further for the man.

With his face set grimly in his determination not to die, the old man vanquished one after another of his opponents. Every night would find his opponents of the night before ready to seat themselves on the bed where the man was dying and keep him alive by holding up his interest in the game. When winning was too easy, Mr. Hufker would begin to grow tired, and he would spur the players on to better efforts.

The son, who was on the way, was not heard from by the father until he walked into the room. He had kept the family in ignorance of his arrival at New York and had taken a train immediately for Alton without telegraphing. The suspense aided in keeping the father alive. When the son had completed the journey of 6,000 miles to attend his father, the other day he walked into the room with both hands outstretched and a smile on his face. "Father, I've come at last," he exclaimed. The dying man was even then engaged in a game of penuche. He swept aside the cards, forgetting that his opponents were about to beat him, and clasped his son in his arms. The father survived the arrival of his son only one day. He enjoyed the last reunion he had determined to have.

Another daughter, who is a nun in a convent, was at his bedside, and all of the thirteen children were together for the first time in thirteen years.

Hufker died happily. He was given the assurance before his death that his son's early departure from the college in Belgium would not prevent his being ordained as a priest. He had been very zealous in pursuing his studies and had completed his work ahead of time. He will be ordained as priest at Alton in June by Bishop James Ryan. The attending surgeon said during the progress of the case that it was only the card games and hope of seeing his son that kept the old man alive.

Had it not been for his assiduity in playing penuche and thus staying off the desire for sleep, which the doctor said would end in coma and death, the family reunion for which Hufker contended would not have been possible.

Marine Dinners May Prove Popular.

Marine dinners bid fair to vie for popularity with other recent forms of diversion provided for sated mortals who must be eternally entertained with something new, says the New York Press. A fashionable hostess in London recently caused a ripple of excitement among her set by giving a dinner with marine decorations. In the center of the table was a large glass bowl filled with goldfish. Shallow bowls were arranged on each side of this aquarium holding water plants. Tiny pink shells were scattered about the table. Large shells holding electric lights stood opposite each cover. The dinner service was of course painted with fish. The silver menu holders were in the forms of fish and the menu cards painted with sea views.

Three Men Killed.

Indianapolis, March 18.—Three men were killed here by the falling of a heavy steel beam that was being placed in position for railroad track elevation. The men were in the employ of the Kelley-Atkinson Construction company of Chicago. While raising one of the heavy beams a chain broke and the men were crushed to death.

BREWERY WORKERS STRIKE

Thirty-five Hundred Men Go Out at St. Louis.

St. Louis, March 18.—Twenty-four breweries in St. Louis and East St. Louis were almost completely shut down by the walkout of nearly 3,500 union brewers, malsters, bottlers, firemen and freight handlers, allied with the brewing interests. The employers declared, however, that there is no possibility of a beer famine and that the strike would soon be ended.

Both the employers and union men are looking forward to the meeting called by Ford Allen, chairman of the state board of mediation and arbitration.

Little trouble was experienced in filling orders and no molesting of men on beer wagons or freight cars was reported.

Beecher's Wedding Fees.

When Collis P. Huntington was married for the second time Henry Ward Beecher performed the marriage ceremony. Huntington's first wife had been dead less than a year, and he desired the second marriage kept secret until his return from Europe. He gave Mr. Beecher a marriage fee of \$1,500. When Huntington returned some months later he went through a public ceremony, and Beecher again officiated. He gave Beecher another fee of \$1,500. The great preacher had his humor aroused by his second fee. Turning to Huntington, he said, "Collis, I do wish you were a Mormon."—Lyceumite and Talent.

The Retort Venomous.

"So this is your widely advertised dollar table d'hote dinner, is it?" said the indignant would be diner as he pushed aside an entree which he could not masticate. "Why, this is the last place in the world I would recommend to friends."

"Don't blame you, sir," said the sad faced waiter. "Send your enemies here."—New York Press.

No Option.

Barber (pausing in the mutilation)—Will you have a close shave, sir? Victim (with a gasp)—If I get out of this chair alive, I shall certainly consider it a very close shave.

Special Policeman Killed.

Chicago, March 18.—Edward C. Hefferman, a special police officer, was shot and killed and J. L. Morin, a bystander, was seriously wounded by Donald Starr, whom the officer had ejected from the elevated station, at Jackson Park avenue, the terminus of the South Side elevated road. Starr, who was intoxicated, then shot himself, inflicting a wound which will probably prove fatal.

Artistic Calenders for 1909

It may be of some interest to some of our reader to learn that they can yet secure calenders for the coming year of 1909. The Dispatch has a complete line of samples and will be very glad to quote you prices. As we have no traveling salesmen at big commissions, we can quote prices as low as the lowest

WEDNESDAY, MARCH 18, 1908

WEATHER FORECAST

Probably snow and colder tonight, Thursday fair.

The following are the weather conditions at 7 a. m. today and this date last year at various points on the Minnesota & International railroad as shown by the record at the general offices of that road:

Town	1908	1907
Brainerd	4 Clear	15 Cldy
Walker	5 " "	13 " "
Bemidji	5 " "	18 " "
Blackduck	5 " "	17 " "
Kelliher	5 " "	20 " "
Northome	5 " "	16 " "
Big Falls	5 " "	16 " "
Int'l Falls	5 " "	16 " "

THE robin and groundhog have each had their inning and still spring lingers.

"In God we trust" goes back onto the coins of the United States according to a vote of the house. You will know a dollar when you meet it.

IF THE owner of Dan Patch gets into the gubernatorial game it is hinted that he will "go some." It will be an advertisement for stock food at least.

JOEL HEATWOLE's friends are waiting for him to say the word, and then again a good many of the fellows who are not so friendly are just as anxious. Some one is always waiting to take a fall out of some one else—politically or otherwise.

IN ORDER to save Harry Thaw from the gallows it was necessary to prove that he was insane. Evelyn has taken advantage of Harry's weakness and will get a divorce on the strength of the insane plea being true. Great world.

THE speech of Congressman Lindbergh on currency and finance has been published in the Congressional Record and several copies of the same have been received in this city. The entire speech is of considerable length, covering something like 13,000 words, that part relating to emergency currency having been published in this paper in January.

EDITOR HAMILTON, of the Aitkin Republican, has got himself into prominence that is liable to land him in the legislature through his able efforts at the editorial meeting in January. The moulders of public opinion in the north half of the state seem to think he is made of the right stuff to occupy a position where the peoples' rights are to be protected.

IF THE efforts of the iron companies are successful the United States Steel Corporation and the Oliver Mining Company will be granted a reduction of \$30,000,000 on the valuation of the Oliver properties in this state. Representatives of the iron interests have already been before the tax commission and the independent companies are to be heard on Tuesday next.

THE date for the democratic county conventions throughout the state to select delegates to the state delegate convention has been fixed for May 9th, the primaries to be held May 6th. The chairman of the democratic state central committee has given out the dates, the matter having been left to him. Now the struggle between the Bryan and Johnson forces will begin—and Crow Wing is listed as a Bryan county.

THE city of Red Wing is liable to be wiped off the map at any moment, according to the Republican. Contractors have stored in an old tunnel in the bluff adjacent to the city enough dynamite and giant powder to tear away the entire bluff and destroy the city, and the authorities have been called upon to remove the same to a place of safety before through carelessness or feindishness the explosives are ignited and a terrible disaster recorded.

Now is the Time

to think of that UMBRELLA of yours. Get a handle or cover for it—a new one breaks as easily as a repaired one.

Your cook stove needs some repairs, so get it done now. Don't throw away your furniture—get it repaired.

Hot Springs, Ark., March 18.—Before a large St. Patrick's day crowd, Marvin Hart of Louisville was awarded the decision in the fourth round over John Wille of Chicago on a foul. The men had agreed to break clean. Immediately following a clinch and as Hart was stepping back unprotected Wille swung a hard right to the ear, sending Hart sprawling. Hart was unable to respond and his ear may be seriously injured.

Small Riot in Chicago.

Chicago, March 18.—An effort by the Chicago City Railway company to enforce a rule excluding newsboys from the "pay as you enter" cars of the company caused a small sized riot on Wabash avenue. Several score of paper venders "rushed" the cars and attempted to board them. A number of free fights resulted, the police were called, and several arrests made. No one was seriously hurt.

FIGHT AGAINST DEATH

Dying Man Played Cards Two Weeks to Keep Himself Alive.

FRIENDS KEPT GAME GOING.

Aged Illinoisan's Mind Diverted With Penuchie Till His Son Came From Belgium to Say Farewell—Lived to Enjoy Last Reunion He Determined to Have.

Joseph Hufker of Alton, Ill., who died recently after living long enough to see the face of his son Louis, who started on Washington's birthday from a college in Belgium, where he was studying for the Roman Catholic priesthood, had thirteen children, and there had not been a family reunion for thirteen years. The father was told by his physician he was dying from cancer of the stomach and could not live more than a week. "I will live long enough to hold another family reunion," he told the doctor, who shook his head.

Hufker ordered a message sent to his son to leave his studies and hasten across the ocean to see him, and a message came back that the father's command had been obeyed. Then Hufker settled himself to the task of living until the time would come for his son to reach his bedside. The doctor told him that he must keep up his spirits if he would live the time desired.

Penuchie was his favorite card game, and he was an expert who was always able to uphold his championship claims. He invited the neighbors to come in and take the places of his children when they would become tired of playing. Mr. Hufker seldom slept because of the intense pain in his stomach. Seated in bed, he would play hour after hour. To add zest to the contest he would urge his opponents to play better and try harder to beat him, but he remained the unbeaten champion of this game with death. A dozen decks of cards were worn out.

Hufker played his game so well that he stayed the hand of death one week, then ten days, then two weeks. The doctor ceased making his visits, saying it was no use to attempt anything further for the man.

With his face set grimly in his determination not to die, the old man vanquished one after another of his opponents. Every night would find his opponents of the night before ready to seat themselves on the bed where the man was dying and keep him alive by holding up his interest in the game. When winning was too easy, Mr. Hufker would begin to grow tired, and he would spur the players on to better efforts.

The son, who was on the way, was not heard from by the father until he walked into the room. He had kept the family in ignorance of his arrival at New York and had taken a train immediately for Alton without telegraphing. The suspense aided in keeping the father alive. When the son had completed the journey of 6,000 miles to attend his father, the other day he walked into the room with both hands outstretched and a smile on his face.

"Father, I've come at last," he exclaimed. The dying man was even then engaged in a game of penuchie. He swept aside the cards, forgetting that his opponents were about to beat him, and clasped his son in his arms. The father survived the arrival of his son only one day. He enjoyed the last reunion he had determined to have.

Another daughter, who is a nun in a convent, was at his bedside, and all of the thirteen children were together for the first time in thirteen years.

Hufker died happily. He was given the assurance before his death that his son's early departure from the college in Belgium would not prevent his being ordained as a priest. He had been very zealous in pursuing his studies and had completed his work ahead of time. He will be ordained as priest at Alton in June by Bishop James Ryan. The attending surgeon said during the progress of the case that it was only the card games and hope of seeing his son that kept the old man alive.

Had it not been for his assiduity in playing penuchie and thus staving off the desire for sleep, which the doctor said would end in coma and death, the family reunion for which Hufker contended would not have been possible.

Marine Dinners May Prove Popular.

Marine dinners bid fair to vie for popularity with other recent forms of diversion provided for sated mortals who must be eternally entertained with something new, says the New York Press. A fashionable hostess in London recently caused a ripple of excitement among her set by giving a dinner with marine decorations. In the center of the table was a large glass bowl filled with goldfish. Shallow bowls were arranged on each side of this aquarium holding water plants. Tiny pink shells were scattered about the table. Large shells holding electric lights stood opposite each cover. The dinner service was of course painted with fish. The silver menu holders were in the forms of fish and the menu cards painted with sea views.

The Retort Venomous.

"So this is your widely advertised dollar table d'hote dinner, is it?" said the indignant would be diner as he pushed aside an entree which he could not masticate. "Why, this is the last place in the world I would recommend to friends."

"Don't blame you, sir," said the sad faced waiter. "Send your enemies here."—New York Press.

No Option.

Barber (pausing in the mutilation)—Will you have a close shave, sir? Victim (with a gasp)—If I get out of this chair alive, I shall certainly consider it a very close shave.

Special Policeman Killed.

Chicago, March 18.—Edward C. Hefferman, a special police officer, was shot and killed and J. L. Morlin, a bystander, was seriously wounded by Donald Starr, whom the officer had ejected from the elevated station, at Jackson Park avenue, the terminus of the South Side elevated road. Starr, who was intoxicated, then shot himself, inflicting a wound which will probably prove fatal.

Artistic Calenders for 1909

It may be of some interest to some of our reader to learn that they can yet secure calenders for the coming year of 1909. The Dispatch has a complete line of samples and will be very glad to quote you prices. As we have no traveling salesmen at big commissions, we can quote prices as low as the lowest

ENTERTAINMENT WAS A SUCCESS

Annual St. Patrick's Day Entertainment Filled Opera House
Tuesday Evening

THE PROGRAM WAS PLEASING

Drama and Other Features of the Evening Were Heartily Enjoyed by Audience

The annual St. Patrick's day entertainment given at the opera house Tuesday evening for the benefit of St. Francis Catholic church, was a great success both financially and judged from the standpoint of inherent excellence.

The program of the evening was opened by Rev. Father O'Mahoney, who in a brief address eulogized Ireland and the Irish, and especially the Irish in America. The address was well enjoyed and heartily applauded. Miss Mayme Scallon then sang "The Dear Old Shamrock of Ireland," which was beautifully rendered and applauded heartily.

The drama, "The Farish Priest" was presented in a very creditable manner. In fact it was much better than was put on by nearly the same cast last year. Those who took part then had gained in self confidence and in familiarity with the play.

J. T. Sanborn, as the Parish Priest was at his best last night. The dry humor of the part, as well as the depth of feeling, was well brought out.

The part of Dr. Cassidy was well taken by E. R. Smith, the contrasts of dignity and irascibility being clearly portrayed.

The conception of the part of Dr. Edward Welsh, as played by Chas. E. Wilson, was radically different from that of the same part by Wm. E. Fox last year. The latter was more that of the polished, designing man of the world, while the conception of Mr. Wilson was that of a well meaning but impetuous young man who is lead astray by his feeling of gratitude to Dr. Cassidy and by the circumstances by which he is surrounded. One could only dispise one, but he could not help but sympathize with the other.

Dr. Lausted, as James Welsh, W. J. F. Miller, as Michael Sullivan, Edgar Koop as Frank Daugher, and May O'Brien, as Agnes Cassidy, all showed decided improvements in their parts over last year and did themselves great credit.

Mrs. B. C. McNamara, as Helen Durkin, played the part with a sweet dignity which won the hearts of the audience. Her enunciation was good and the part was neither weak nor overdrawn.

Emily Quinn, as Katherine Corrigan, portrayed the part with excellent taste and made a decided hit.

The exhibition of Irish step dancing by Miss Zette Lacasse and Master Jack Mooney was fine and they were called back several times before the audience was satisfied. They were attired in the costumes of the Irish peasantry and made a pretty picture on the stage.

B. C. BARRETT DEAD

Father of Mrs. E. K. Copper and Brother of Miss Lou. P. Barret Died in this City Today

B. C. Barrett, of Park Rapids, father of Mrs. E. K. Copper, died at the home of Mr. and Mrs. Copper in this city at noon today, after a lingering illness with cancer of the liver. Mr. Barrett came here some weeks ago for medical treatment, but failed rapidly and soon took to his bed. The funeral services will be held at the Copper family residence, 303 Kingwood street, at 9:30 o'clock Friday morning conducted by Rev. Chas. Fox Davis. The remains will be taken to Wadena on the noon train that day and laid to rest in the cemetery at that place, services being conducted by Shell Lodge No. 184, A. F. & A. M., of Park Rapids, of which he was a member. The deceased leaves a widow and two children besides several brothers and sisters and other relatives to mourn his death. Miss Lou P. Barret, principal of the Whittier school is a sister. The bereaved ones have many friends in this city who extend their heartfelt sympathy.

Open Evenings

THE DISPATCH office will be open Thursday, Friday and Saturday evenings of this week for the benefit of those desiring to pay their subscription and get the discounts for advance payments made prior to April first. Remember the office is located in THE DISPATCH building opposite the postoffice. 243tdw1

Card of Thanks

We wish to extend our thanks to the friends and especially to the members of the Degree of Honor for courtesies shown us at the time of the death of Mrs. Bush's mother.
MR. AND MRS. J. W. BUSH.

COMMUTEMENT FOR ORCHARD

SPECIAL TO THE DISPATCH:
Caldwell, Idaho, March 18—Stating that he believed that Harry Orchard in his testimony in the trials of William D. Haywood and George A. Pettibone for the murder of a former governor Frank Steunenberg told the exact truth, attempting to conceal nothing, Judge Fremont Wood, in the district court today recommended that the state board of pardons commute Orchard's sentence to death to imprisonment in the state penitentiary. The sentence of death was pronounced in accordance with the plea of guilty which was entered by Orchard on Tuesday of last week when he was arraigned. Judge Wood presided at both the Haywood and the Pettibone trials.

DEATH OF P. A. EGAN

Minneapolis Man Well Known in Brainerd Passed Away at Forest Lake, Minn., Tuesday

Fred S. Parker this morning received a letter bringing the news of the death of Patrick A. Egan. Mr. Egan, who had made his summer home at Parkerville for several years, had many friends in this city. He was one of the best known insurance men in the west and in his younger days was one of the leading athletes of the state, having been the founder of the St. Paul Athletic Club. The letter received by Mr. Parker stated that no funeral arrangements had as yet been made as the family was trying to get into communication with a brother of Mr. Egan. Mr. Parker will go to St. Paul tomorrow morning to attend the funeral.

This is Worth Remembering

DEATH ANGEL CALLED FOUR

Mrs. Maggie E. Kennedy, Anton Huseby, Tom McIntosh and Frank Rossini

ARE NAMES OF THE DEATH ROLL

All Have Been Residents for Some Time and are Well Known to Brainerdites

There were four deaths in this city Tuesday. Mrs. Maggie E. Kennedy, 213 Laurel street died after an illness of about two weeks and will be buried from St. Francis Catholic church Thursday morning at 8 o'clock.

Anton Huseby, one of the best known residents of Southeast Brainerd, died at his home, 1520 Pine street Southeast Tuesday of tubercular meningitis. Mr. Huseby, who was 38 years of age leaves a wife and three children. He was a member of the A. O. U. W., I. S. W. A. and Sons of Norway and of the Carmen's Union and was popular in all the orders. The funeral will take place from the house at 2:00 and from the Nor-Danish Lutheran church at 2:30 o'clock Thursday afternoon. Services will be conducted by Rev. Hougstad, pastor of the church, followed by interment in Evergreen cemetery.

Tom McIntosh, a well known character about town for several years, died at the county farm Tuesday and his remains were brought to this city for interment. So far as known he has no relatives in this part of the country.

Frank Rossini, formerly a well known resident of East Brainerd died of tuberculosis on the same day and the remains are now at Clark's undertaking parlors. Mr. Rossini has not been living with his family for some years and it is not known as yet what funeral arrangements will be made.

Peter Nelson Buck, aged 85, and for twenty-five years a resident of Crow Wing county, died today at the home of his son, John Peterson, northwest of this city. No funeral announcements have been made as yet.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. H. P. Dunn. mwf dw

His Strength Ebbing Daily.

London, March 18.—The strength of Sir Henry Campbell-Bannerman, the British premier, is ebbing daily and his friends take the gravest view of the dropsical symptoms which have appeared in his extremities. The medical bulletins continue disquieting.

Senator Nelson's Son Dead.

Colorado Springs, Colo., March 18.—Henry Knute Nelson, son of Senator Knute Nelson of Minnesota, died here of consumption after a long illness, aged thirty-seven years.

BUSINESS CAR WAS ROBBED

Minnesota & International Private Car Entered While Porter Was at Opera House

CAR THOROUGHLY RANSACKED

Suit of Clothes, Overcoat, Watch, Provisions and Other Property Were Taken

While Henry Sathers, the porter of the business car of the Minnesota & International railroad, was at the opera house attending the St. Patrick's day entertainment, Tuesday evening, the car was entered and thoroughly ransacked. All the clothing in the car was hauled out and a suit of clothes, an overcoat, and a lot of underwear and a gold watch belonging to Mr. Sathers were taken. All the clothes belonging to Mr. Strachan and Mr. Gemmell in the car were dragged out into the main room of the car and overhauled but apparently none of it was taken.

The thief or thieves entered the car at the observation end, prying the door in with a crow bar and forcing a large piece off the door casing. While the robbery was not discovered until this morning it is certain that the car was robbed during Mr. Sather's absence, as things were taken out of a locker under his bed, where it would have been impossible to have secured them while he was in the bunk, even though he had been chloroformed. He entered by the other door and went to bed at once.

The clothes of Mr. Gemmell and Mr. Strachan were apparently not good enough for the thieves, being only some rough apparel kept in the car by them for use while out on the line looking after track work or other work of the kind. The thieves had not been so fastidious previously, however, as they left some clothes evidently of the wardrobe of a bum behind, but whether they were worn by the thieves or simply planted as a blind is a question yet to be solved.

Nearly all the provisions in the car were taken, which would lend color to the theory that there was local talent at work. The fact of the locker under the bunk being searched would also indicate a knowledge of the construction of cars of that sort as there was nothing to indicate the presence of the locker.

A night or two prior a freight car was opened in the yard here and a number of valuable cigars and considerable other property was taken. Frank R. Shong, of Duluth, one of the company's plain clothes men arrived in the city today to look up the matter. It is said that the company will spend much more than the value of the things taken to put a stop to the depredations.

WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Most Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Brainerd cures prove it.

Mrs. J. A. Johnson, living at 611 Tenth St. S. Brainerd, Minn., says: "My husband's work brings a constant severe strain on the muscles of the back and it recently caused an attack of kidney trouble. His troubles became worse whenever he took cold and he was often so lame and sore that it was hard for him to move about. There was also an irregular action of the kidneys. Seeing Doan's Kidney Pills advertised he procured a box at H. P. Dunn & Co's drug store, and they proved most beneficial, correcting the kidney trouble and removing pain and lameness in his back. I also used Doan's Kidney Pills with the most gratifying results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

HELD ANNUAL MEETING

Riverside Gun Club Elected Officers
Last Sunday Afternoon and Transacted Other Business

The Riverside Gun club held its annual meeting Sunday afternoon in the Commercial Club rooms. The meeting was well attended. Officers for the coming year were elected as follows:

Pres.—Geo. Trent.
Vice Pres.—J. R. Smith.
Sec'y.—H. L. Paine.
Ass't. Sec'y.—J. L. Fredericks.
2nd Ass't. Sec'y.—H. Linnemann.
Treas.—R. H. Paine.
Field Capt.—J. C. Davis.
Asst. Capt.—Artie White.

A Leggett trap, capable of throwing 1,000 birds per hour has been ordered. This does away with two trap boys only one being needed.

A committee was appointed to see to placing the trap and making other repairs to the grounds and buildings.

The finances of the club are in good condition and a good increase in membership is expected.

A couple of gold trophies, which are put up by some of the powder companies have been sent for and these will add an interest to the shooting.

The next meeting will be held on the 29th of the month at the same place.

Notice to Our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. P. Dunn. mwf dw

ESDON ETCHINGS.

Our new Justice of the Peace D. Cord, is offering to marry the first couple that will apply, free of charge. Can't some one give him a job?

The thaw of last week found nearly all the farmers in town with sleds, and a slow job to get home. The thaw took as sudden a freeze up and now we are enjoying snow again.

Miss Mabel Johnson received a telegram telling her of the death of her sister Martha's little daughter, Violet. Miss Johnson left the next morning for Duluth.

H. M. Johnson and Clarence came to Eason recently to buy one of those nice Scotch Collie puppies of Oscar Hammett.

Robert Chord, of Hasty, Minn., is making Mrs. Chord and Dan a week's visit. The visit was quite a surprise and they are very much pleased.

Lee Joy is working for Ed. Bath in the saw mill.

Willie Joy had the misfortune to break the bones of one of his hands a short time ago. He was working in Duluth. He is getting better quite rapidly.

Fred Wolf is enjoying a visit from a cousin. We did not learn his name.

DAME RUMOR.

Given up to Die

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney cure was recommended and the first bottle gave me much relief, and after taking the second bottle I was entirely cured." Why not let it help you. H. P. Dunn. mwf dw

The Emmanuel Movement and Christian Science

EDITOR DISPATCH:

Will you kindly publish this answer to a reference to Christian Science in the article entitled, "The Emmanuel Movement" appearing in your issue of March 5.

Christian Science is the primitive Christianity of our Saviour, as taught and practiced by Jesus Christ, by his apostles, and by the early Christians. In his healing work, Jesus used neither psychology, medicine, nor mental suggestion, but relied upon God alone for the healing of disease, as well as for the curing of sin. Christ said: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father" (John 14: 12.) "It is enough for the disciple that he be as his master" (Matt. 10: 25.)

Whosoever attempts to vary, to add to, or to improve our Saviour's system is not using Christ's method of healing, and therefore is not using Christian Science.

ABBOT EDES SMITH,
Committee on Publication for Minn.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

View on Prohibition

EDITOR DISPATCH:—Hoping that I may not overcrowd your valuable space in THE DISPATCH I wish that you would kindly publish the enclosed article or opinion on the prohibition movement.

The prohibition movement as advocated at the present time is unscientific and therefore ineffective. It proposes to abolish intemperance by putting the sale of liquor out of business. It does not look at the real cause of the evil and therefore its remedies are mostly useless. The prohibition movement claims or holds that the liquor sale and traffic is just being carried on because the laws are not right or stringent enough. It further believes that by carefully amending and lots of enforcement of our present laws all trouble arising from the evil will disappear. They also claim that a great deal of poverty is due to indulging in alcoholic intoxication and that if the traffic and sale of drink be abolished poverty will also be abolished. It affirms moreover that immorality is caused by drink and that with prohibition this vice would disappear likewise. In other words the temperance movement declares that drink is a creation of the law and that the law can prohibit it. To cap the climax they claim that prohibition is the natural way of procedure. The movement entirely ignores the real cause of the evil. What can be more misrepresented or untrue? The principles on which prohibition is founded are entirely false, which I will show later on. Intemperance, like all other vices, is due to economic conditions. If economic conditions are poor, morals are poor, if economic conditions change, morals change. The ethics, morals, religious views, education, and even the laws themselves of the feudal era are different from our own. Each economic system of society has its own codes and its own standards of life. For instance a working man who drudges all day at his toil is not poor because he drinks, but drinks because he is poor. A man who has most of his life ground out of him and comes to his hotel in the evening all tired out will nine times out of ten take to drink. The saloon or gin shop is a much more congenial place of abode to him than the looks of the poor place he lives in. There he comes in contact with his friends, and it is there, while under the influence of stimulants, that he forgets his hardships. Drink is not the cause of poverty, but it is in the main poverty that is the cause of drink. There is no more temperate people on earth than the Hindoos and there are no poorer people on earth than the Hindoos. The prohibitionists claim that drunkenness is the cause of immorality. In this claim they are in error again. Immorality is due to only two things, ignorance and poverty; and these two things are likewise attributable to economic conditions, all statistics bearing on this subject, that have come to my notice, show that at least 85 per cent of all registered prostitutes come from families of the working class. The working class is poor and ignorant because present economic conditions make it so. Then, the prohibitionists maintain that the liquor traffic could be stopped by a simple enactment of certain laws. They ignore the fact that laws conform to material interests and that the nature of the predominating material interests depend upon the state of a society. Elevate the economic status of a society and you elevate the nature of its material interests; elevate the nature of its material interests and you rear a better people and a better people means better morals, and consequently better laws. The prohibitionists, however, want to put the cart before the horse, and make better people, better morals and better economic conditions by making better laws. Such a procedure is absurd. The principal trait of our industrial world today is production for profit. All commercial and productive enterprises have for their main spring the desire of pecuniary gain and for their collateral spring production for use. If this main spring be removed, therefore, and in its stead placed that of production for use alone, you take away the great prop of the saloon evil. The saloon is run and made attractive because there is a profit in doing so. With the removal of this prop it will cease to exist just as a plant ceases when deprived of its nourishment. But when production in a commonwealth is carried on for us alone, that commonwealth is social like and a social like or socialistic commonwealth means few hours and full reward to labor. In it a working man would enjoy his work and have an attractive and comfortable home where he could meet his friends and acquaintances, where he would crave to stay. In it there would be no ignorance, no poverty, and vice would be consequently reduced to a minimum. Then the liquor problem would be solved in a natural and scientific way.

E. W. VAN WALK.

No Case on Record

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. H. P. Dunn. mwf dw

Frank Rossini, formerly a well known resident of East Brainerd died of tuberculosis on the same day and the remains are now at Clark's undertaking parlors. Mr. Rossini has not been living with his family for some years and it is not known as yet what funeral arrangements will be made.

Peter Nelson Buck, aged 85, and for twenty-five years a resident of Crow Wing county, died today at the home of his son, John Peterson, northwest of this city. No funeral announcements have been made as yet.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. H. P. Dunn. mwf dw

His Strength Ebbing Daily.

London, March 18.—The strength of Sir Henry Campbell-Bannerman, the British premier, is ebbing daily and his friends take the gravest view of the dropsical symptoms which have appeared in his extremities. The medical bulletins continue disquieting.

Senator Nelson's Son Dead.

Colorado Springs, Colo., March 18.—Henry Knute Nelson, son of Senator Knute Nelson of Minnesota, died here of consumption after a long illness, aged thirty-seven years.

BUSINESS CAR WAS ROBBED

Minnesota & International Private Car Entered While Porter Was at Opera House

CAR THOROUGHLY RANSACKED

Suit of Clothes, Overcoat, Watch, Provisions and Other Property Were Taken

While Henry Sathers, the porter of the business car of the Minnesota & International railroad, was at the opera house attending the St. Patrick's day entertainment, Tuesday evening, the car was entered and thoroughly ransacked. All the clothing in the car was hauled out and a suit of clothes, an overcoat, and a lot of underwear and a gold watch belonging to Mr. Sathers were taken. All the clothes belonging to Mr. Strachan and Mr. Gemmell in the car were dragged out into the main room of the car and overhauled but apparently none of it was taken.

The thief or thieves entered the car at the observation end, prying the door in with a crow bar and forcing a large piece off the door casing. While the robbery was not discovered until this morning it is certain that the car was robbed during Mr. Sather's absence, as things were taken out of a locker under his bed, where it would have been impossible to have secured them while he was in the bunk, even though he had been chloroformed. He entered by the other door and went to bed at once.

The clothes of Mr. Gemmell and Mr. Strachan were apparently not good enough for the thieves, being only some rough apparel kept in the car by them for use while out on the line looking after track work or other work of the kind. The thieves had not been so fastidious previously, however, as they left some clothes evidently of the wardrobe of a bum behind, but whether they were worn by the thieves or simply planted as a blind is a question yet to be solved.

Nearly all the provisions in the car were taken, which would lend color to the theory that there was local talent at work. The fact of the locker under the bunk being searched would also indicate a knowledge of the construction of cars of that sort as there was nothing to indicate the presence of the locker.

A night or two prior a freight car was opened in the yard here and a number of valuable cigars and considerable other property was taken. Frank R. Shong, of Duluth, one of the company's plain clothes men arrived in the city today to look up the matter. It is said that the company will spend much more than the value of the things taken to put a stop to the depredations.

WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Most Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Brainerd cures prove it.

Mrs. J. A. Johnson, living at 611 Tenth St. S. Brainerd, Minn., says: "My husband's work brings a constant severe strain on the muscles of the back and it recently caused an attack of kidney trouble. His troubles became worse whenever he took cold and he was often so lame and sore that it was hard for him to move about. There was also an irregular action of the kidneys. Seeing Doan's Kidney Pills advertised he procured a box at H. P. Dunn & Co's drug store, and they proved most beneficial, correcting the kidney trouble and removing pain and lameness in his back. I also used Doan's Kidney Pills with the most gratifying results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doans—and take no other.

HELD ANNUAL MEETING

Riverside Gun Club Elected Officers
Last Sunday Afternoon and Transacted Other Business

The Riverside Gun club held its annual meeting Sunday afternoon in the Commercial Club rooms. The meeting was well attended. Officers for the coming year were elected as follows:

Pres.—Geo. Trent.
Vice Pres.—J. R. Smith.
Sec'y.—H. L. Paine.
Ass't. Sec'y.—J. L. Fredericks.
2nd Ass't. Sec'y.—H. Linnemann.
Treas.—R. H. Paine.
Field Capt.—J. C. Davis.
Asst. Capt.—Artie White.

A Leggett trap, capable of throwing 1,000 birds per hour has been ordered. This does away with two trap boys only one being needed.

A committee was appointed to see to placing the trap and making other repairs to the grounds and buildings.

The finances of the club are in good condition and a good increase in membership is expected.

A couple of gold trophies, which are put up by some of the powder companies have been sent for and these will add an interest to the shooting.

The next meeting will be held on the 29th of the month at the same place.

Notice to Our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. P. Dunn. mwf dw

ESDON ETCHINGS.

Our new Justice of the Peace D. Cord, is offering to marry the first couple that will apply, free of charge. Can't some one give him a job?

The thaw of last week found nearly all the farmers in town with sleds, and a slow job to get home. The thaw took as sudden a freeze up and now we are enjoying snow again.

Miss Mabel Johnson received a telegram telling her of the death of her sister Martha's little daughter, Violet. Miss Johnson left the next morning for Duluth.

H. M. Johnson and Clarence came to Esdon recently to buy one of those nice Scotch Collie puppies of Oscar Hammett.

Robert Chord, of Hasty, Minn., is making Mrs. Chord and Dan a week's visit. The visit was quite a surprise and they are very much pleased.

Lee Joy is working for Ed. Bath in the saw mill.

Willie Joy had the misfortune to break the bones of one of his hands a short time ago. He was working in Duluth. He is getting better quite rapidly.

Fred Wolf is enjoying a visit from a cousin. We did not learn his name.

DAME RUMOR.

Given up to Die

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney cure was recommended and the first bottle gave me much relief, and after taking the second bottle I was entirely cured. Why not let it help you. H. P. Dunn. mwf dw

The Emmanuel Movement and Christian Science

EDITOR DISPATCH:

Will you kindly publish this answer to a reference to Christian Science in the article entitled, "The Emmanuel Movement" appearing in your issue of March 5.

Christian Science is the primitive Christianity of our Saviour, as taught and practiced by Jesus Christ, by his apostles, and by the early Christians. In his healing work, Jesus used neither psychology, medicine, nor mental suggestion, but relied upon God alone for the healing of disease, as well as for the curing of sin. Christ said: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father" (John 14: 12). "It is enough for the disciple that he be as his master" (Matt. 10: 25.)

Whosoever attempts to vary, to add to, or to improve our Saviour's system is not using Christ's method of healing, and therefore is not using Christian Science.

ABBOT EDES SMITH,

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

View on Prohibition

EDITOR DISPATCH:—Hoping that I may not overcrowd your valuable space in THE DISPATCH I wish that you would kindly publish the enclosed article or opinion on the prohibition movement.

The prohibition movement as advocated at the present time is unscientific and therefore ineffective. It proposes to abolish intemperance by putting the sale of liquor out of business. It does not look at the real cause of the evil and therefore its remedies are mostly useless. The prohibition movement claims or holds that the liquor sale and traffic is just being carried on because the laws are not right or stringent enough. It further believes that by carefully amending and lots of enforcement of our present laws all trouble arising from the evil will disappear. They also claim that a great deal of poverty is due to indulging in alcoholic intoxication and that if the traffic and sale of drink be abolished poverty will also be abolished. It affirms moreover that immorality is caused by drink and that with prohibition this vice would disappear likewise. In other words the temperance movement declares that drink is a creation of the law and that the law can prohibit it. To cap the climax they claim that prohibition is the natural way of procedure. The movement entirely ignores the real cause of the evil. What can be more misrepresented or untrue? The principles on which prohibition is founded are entirely false, which I will show later on. Intemperance, like all other vices, is due to economic conditions. If economic conditions are poor, morals are poor, if economic conditions change, morals change. The ethics, morals, religious views, education, and even the laws themselves of the feudal era are different from our own. Each economic system of society has its own codes and its own standards of life. For instance a working man who drudges all day at his toil is not poor because he drinks, but drinks because he is poor. A man who has most of his life ground out of him and comes to his hovel in the evening all tired out will nine times out of ten take to drink. The saloon or gin shop is a much more congenial place of abode to him than the looks of the poor place he lives in. There he comes in contact with his friends, and it is there, while under the influence of stimulants, that he forgets his hardships. Drink is not the cause of poverty, but it is in the main poverty that is the cause of drink. There is no more temperate people on earth than the Hindoos and there are no poorer people on earth than the Hindoos. The prohibitionists claim that drunkenness is the cause of immorality. In this claim they are in error again. Immorality is due to only two things, ignorance and poverty; and these two things are likewise attributable to economic conditions, all statistics bearing on this subject, that have come to my notice, show that at least 85 per cent of all registered prostitutes come from families of the working class. The working class is poor and ignorant because present economic conditions make it so. Then, the prohibitionists maintain that the liquor traffic could be stopped by a simple enactment of certain laws. They ignore the fact that laws conform to material interests and that the nature of the predominating material interests depend upon the state of a society. Elevate the economic status of a society and you elevate the nature of its material interests; elevate the nature of its material interests and you rear a better people and a better people means better morals, and consequently better laws. The prohibitionists, however, want to put the cart before the horse, and make better people, better morals and better economic conditions by making better laws. Such a procedure is absurd. The principal trait of our industrial world today is production for profit. All commercial and productive enterprises have for their main spring the desire of pecuniary gain and for their collateral spring production for use. If this main spring be removed, therefore, and in its stead placed that of production for use alone, you take away the great prop of the saloon evil. The saloon is run and made attractive because there is a profit in doing so. With the removal of this prop it will cease to exist just as a plant ceases when deprived of its nourishment. But when production in a commonwealth is carried on for us alone, that commonwealth is social like and a social like or socialistic commonwealth means few hours and full reward to labor. In it a working man would enjoy his work and have an attractive and comfortable home where he could meet his friends and acquaintances, where he would crave to stay. In it there would be no ignorance, no poverty, and vice would be consequently reduced to a minimum. Then the liquor problem would be solved in a natural and scientific way.

E. W. VAN WALK.

No Case on Record

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. H. P. Dunn. mwf dw

Winalow's Soothing Syrup

Has been used for over SIXTY-FIVE YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, EASES ALL PAIN; CURES WIND COLIC, and is "as good a remedy for DIARRHCEA, Sold by Druggists in every part of the world. Be sure and ask for "Mrs. Winalow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle. Guaranteed under the U. S. and Prince Act, June 20th, 1906. Serial Number 1008. SCIENCE OF FOODS.

Eugene Christian's Plan For Prolonging Human Life.

BASED ON SIMPLE PRINCIPLES

Value of Balanced Diet Explained by the Founder of "Food Science"—How to Derive the Most Nourishment From What We Eat.

By FREDERICK R. TOOMBS.

Food science is a subject that is just now attracting a great deal of attention in many sections of the United States. Its founder, Eugene Christian of New York city, the well known lecturer on diet and health culture and author of "Perfect Health" and "Uncooked Foods," has at the same time been widely talked of as a man who is doing work of tremendous value to ward clearing up many of the perplexing dietary problems that confront the public.

Food science paves the way for and will undoubtedly lead to a complete revolution in the manner of living of countless numbers of people. According to eminent authorities, it should have appreciable effect in prolonging human life and in a large measure emancipating people from the use of drugs in the attempted correction of ills resulting from digestive troubles.

The principles on which food science is based are so simple that when they are understood it naturally occurs to a person to wonder why it is that at this late period they are first reduced to an actual science and publicly promulgated.

When asked recently how he accomplished his results Mr. Christian said to the writer:

"Naturally my work relates exclusively to the stomach and other organs that assist in the process of digestion and assimilation. The disorders of these organs are caused by errors in eating or drinking.

I study each individual case minutely, taking into consideration the age of the person, temperature, environment, occupation, etc., and then ascertain the specific chemical elements his body requires, and in what quantities or proportions.

As the body is composed of fifteen specific chemical elements, all of which are well known to the food chemist, we should take each day such combinations and selections of food as will reproduce these chemical elements in their right proportions. For instance, a man doing ordinary work would need two ounces of protoid matter each twenty-four hours. If he should take four ounces habitually he would ultimately have trouble or if

Freed from Piles THE JOY OF IT.

The utter misery and despair of the sufferer from piles or hemorrhoids can never be described. Not only the intense itching and stinging, but the whole system seems to be undermined by this horrible disease.

The joy which cured ones experience on being freed from itching, bleeding and protruding piles is told in thousands of letters received in regard to

Dr. A. W. Chase's Ointment

You need not tell the writers of these letters that there is a case of piles which Dr. A. W. Chase's Ointment will not cure, for they will not believe it. They alone know how they suffered, and also know that this ointment cured them. It brings relief at once. 50 cts. a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mr. John Auer, East 5th St., Marysville, Ohio, states:

"For twenty years I could get no relief from itching piles, either from doctors' or other treatments. One box of Dr. A. W. Chase's Ointment positively cured them, to stay cured and the relief and comfort is too great to be described."

H. P. Dunn, Druggist

RANGE FOR BUFFALO

Plan to Save Remnant of Animals From Extinction.

FEDERAL PRESERVE WANTED

Bill to Be Introduced to Reserve Part of Flathead Indian Lands in Montana—American Bison Association Wants Animals Owned by an Indian Purchased.

A plan is under consideration by President Roosevelt and several members of congress to make certain the future existence of the American bison, popularly known as the American buffalo. William T. Hornaday, director of the Bronx Zoological park in New York city and president of the American Bison association, is co-operating with the president to save the remnant of a tribe of beasts that once numbered its members by the millions. Mr. Hornaday went to Washington recently and had a long interview at the White House with Mr. Roosevelt.

There are buffalo in nearly all of the zoos of the country, but the lives of the confined animals are at best precarious, and no one knows when accident or disease may wipe the captives out of existence. It is the wish of Mr. Hornaday, says a Washington correspondent of the New York Post, that a government range be provided for a herd of buffalo in the northwestern country where they may live in large measure as they lived when their only enemies were the red man and the wolf—a condition of life that made for longevity and for increase.

A few years ago a Flathead Indian named Pablo, living in Montana, had in his possession a herd of 350 buffalo, which he sold to the Canadian government. Most of the animals were turned loose in Canada, where it is said they are thriving. About one-half of them are being held for the Canadian government by the Indian. It is presumed these buffalo will be given their freedom within fence limitations in the near future. Pablo will have remaining in his possession about fifty of the animals, the increase since he agreed to sell his herd and some animals that he has picked up recently. The officers of the American Bison association desire that these animals shall be purchased and turned loose on the Flathead Indian reservation in Montana.

Senator Dixon of Montana has become interested in the scheme and will introduce a bill to set aside twenty square miles as a buffalo reserve. The Flathead land holdings are soon to be opened up to settlement, and the land that the government is asked to reserve as a range is almost totally unfit for agricultural purposes. Mr. Hornaday thinks that if such a range is provided the buffalo will double their numbers in three or four years and that the question of the preservation of an animal which supposedly had been doomed to extinction will be solved.

If the Dixon bill becomes a law, the range will be fenced and the buffalo left to themselves to find a living. Naturalists say that this splendid American animal is doomed to extinction unless the animals now in captivity are given the freedom of range and the food and surroundings which were natural to their ancestors before the white man began his war of extermination. The proposed range is said to have every facility for a buffalo preserve. There is an abundance of bunch grass, plenty of running water, ravines which will afford protection in winter and timber enough for shelter under other unfavorable weather conditions.

An appropriation was made by congress last year for the fencing in of a bison preserve in Oklahoma. Fifteen buffalo were turned loose in the preserve, and they are increasing in number and thriving physically. The range is known as the Wichita preserve and is situated in the heart of the country where once great herds of buffalo roamed at their own free will.

When the American Bison association was formed the herd of 250 animals which has been sold to the Canadian government was still in possession of the Flathead Indian, Pablo, but the sale was completed before the association had adopted its constitution or was prepared to begin its work. Many western newspapers criticized the organization for allowing the Canadian government to forestall it in the purchase of these animals. Officers of the association say this criticism was undeserved for the reason that at that time the association was without funds to carry on its work. They say that if the aid now asked of the government is extended it will not be too late to save the American buffalo from extermination.

It is a fact not generally known that there is still in existence a herd of wild bison. Up in the northern part of the province of Saskatchewan there are left a few animals known to the residents of that country as wood buffalo. How many animals there are and what their chances of continued existence are may be put down at best as matters of conjecture. It is the hope of naturalists that the Canadian government may undertake ultimately their protection and preservation. The layman's belief is that the wood buffalo and the buffalo of the plains are different species, but they are not. They are identical except for the fact that the wood buffalo are a little larger than are their southern family members.

Joke on Pain.

Which is the only pain of which every man makes light? The window pane.

BY MORGAN AND OIL TRUST

La Follette Says Recent Panic Was Planned and Executed.

Washington, March 18.—Declaring that the recent financial stringency in the country was brought about by the influence of "Standard Oil" and J. Pierpont Morgan Senator La Follette of Wisconsin, in a speech practically closing the debate on the Aldrich currency bill, entered upon a denunciation of men high in the financial world.

"There were no commercial reasons for a panic," said Mr. La Follette. "There were speculative, legislative and political reasons why a panic might serve special interests. There were business scores to settle, legislation to be blocked, a currency measure suited to the 'system' to be secured, a third term to be disposed of and policies to be discredited."

He severely criticised the provision of the Aldrich bill by which railroad bonds are to be made security for emergency circulation and charged that it was a scheme to defeat legislation which might lower railroad rates.

REPORTED BY ALDRICH.

Amendments to Currency Bill in the Senate.

Washington, March 18.—After speaking for two and a half hours in the senate on the pending currency bill, Senator La Follette asked permission to suspend his remarks and conclude later, as he was unable to continue longer.

Senator Aldrich reported to the senate from the committee on finance amendments to the currency bill exempting railroad bonds from classes of bonds to be used to secure emergency currency, limiting the retirement of such currency and providing that such issues should be permitted up to the par value of bonds used to secure them.

The legislative, executive and judicial appropriation bill was considered and the senate adjourned.

New Trial Asked for Alia.

Denver, March 18.—A motion for a new trial for Giuseppe Alia, the condemned murderer of Father Leo Heinrichs, has been filed by his attorney, Robert H. Widdicombe. It is alleged that Alia was insane when he killed the priest and should have been so declared by the jury. Since the discovery of two weapons in the possession of the prisoner, he is kept under double guard at the county jail day and night.

Position of Racing Cars.

Omaha, March 18.—The relative distances between the New York to Paris racing automobiles is as follows, Carroll, Ia., where the second French car is tied up, being taken as the basing point: Second French car at Carroll; German car at Omaha, 95 miles; first French car at Grand Island, Neb., 251 miles; Italian car, Marston, Wyo., 943 miles; American car, Tecoma, Nev., 1,251 miles.

TELEGRAPHIC BREVITIES.

Cardinal Casali del Drago is dead in Rome. He was born in 1838 and was created cardinal in 1899.

E. W. Gardner of Passaic, N. J., defeated Clarence Jackson of Chicago in the national amateur billiard championship play at Chicago by a score of 400 to 260.

Before a crowd that filled the big Auditorium at Omaha, "Farmer" Burns won from Fred Beall of Wisconsin, taking the first and third falls. The two men were very evenly matched.

HUGE OCEAN LINERS.

Lewis Nixon Predicts Vessels Quarter of a Mile Long.

FOREIGNERS TO BUILD THEM

Ships of Next Generation Will Have Trolley Lines on Deck and Moving Sidewalks, Says American Shipbuilder—Newspapers, Vaudeville and Opera to Amuse Seagoers.

Lewis Nixon, the American shipbuilder, who was recently interviewed by a representative of the New York Evening World, made the following prediction concerning the future ocean steamer:

A generation from now will see vessels far longer than any contemplated now, even though 1,000 foot vessels are projected by the White Star line.

If one will consider, a vessel is a great floating girder, and in order to extend the length and breadth we must extend the depth. This means deeper draft, and, as vessels are built to make money, we must have terminal facilities to admit the greater draft. Today we can see a channel to the wharfs of New York city of forty feet. No doubt deeper drafts can be utilized abroad, and, as vessels will lighten very much in coming over, a heavy import cargo could be carried and the vessel leaving New York take only such a cargo as will permit a safe departure.

To get great power we can go to multiple screws, but there is a limit even to this. Except at vast expense, I do not believe harbors can be prepared for vessels over a quarter of a mile, or 1,200 feet, long, for I do not expect the general shape of vessels to be subject to radical alteration.

A serious question even now affecting navigation in New York harbor is that a small sailboat bent on keeping the right of way can interfere with the movements, possibly disastrously, of a vessel costing millions.

We can accept as an axiom in water borne freight that the cost, other things being equal, is about inversely as the draft on which it is carried. Naturally, then, we shall want to utilize the deepest draft possible, and therefore we shall see vessels built of as deep draft as possible.

The larger the vessel the less proportionate power is required to drive her at any given speed. So we gain in economy of speed production and in economy of freight carrying by building the larger vessel.

A few years ago we could not build bigger vessels on account of the man driven rivet. Now we drive rivets by power. So far as structural limitations are concerned, there is nothing to prevent our floating and propelling at sea any sized structure that is demanded.

I believe, too, that we can launch any sized vessel, but the proportionate cost of launching will increase rapidly with great sizes. Great vessels must be kept going, and long detentions in port must be avoided, so the vessels must be discharged and loaded rapidly, though the express boat, increasing in size and proportionately in speed, will carry, as today, practically no freight.

In my mind's eye I can see the great cargo vessel landing below the Narrows and the great plain extending from the hills of Staten Island to the lower bay a great freight receiving depot, filled with railroad tracks and warehouses and facilities for handling freight. There will be a breakwater or protection of some sort about in line with Swinbourne Island, and inside of this, in a great dock space dredged to about 100 feet, will be wharfs to accommodate the vast freight brought by the deepest vessels.

Newport News will probably be the other deep water harbor of the Atlantic coast.

Great docks can be built at New York under far better conditions than at London, for example, as the rise and fall of the tides there require regular dock gates, through which vessels pass only at high tide. In New York we have only enough tide to scour out our harbor twice a day, so vessels can load or discharge at any stage of the tide.

It pleases the fancy to speculate as to the creature comforts to be found on great ships. Of course there will be the daily paper, the stock ticker and the cable office, afternoon concerts, the vaudeville and the opera. This, however, we can include in a general sweeping statement that every modern comfort and refinement will be found that is found on land.

Shall we do away with seasickness? That cannot be guaranteed, though during a far greater portion of the time spent in crossing we shall have practically no motion. But there are times when squamous stomachs will know they are at sea.

Doubtless along the great stretch of decks where the ultra luxurious travel there will be trolley cars or moving platforms to take them to their state-rooms.

However, we must improve our dredging outfits and prepare the harbor of New York to take the largest vessel that the enterprise of the foreigner sends to our shores.

Will Renounce the Act.

Paris, March 18.—The Gaulois learns from a high diplomatic authority that the government has decided to renounce the act of Algeiras, relating to reforms in Morocco, and will request the powers either to summon a new conference or place the entire Moroccan question before The Hague tribunal.

A 6088 GOOD TEMPLAR.

In the state of Iowa many old soldiers are buying 6088, the great Northern blood purifier, for rheumatism, catarrh and kidney trouble.

Read this extract from a letter written by Mr. Story Keith, Clinton, Iowa, P. C. C. T., Independent Order of Good Templars, to George H. Hazard:

"I have not been as free from rheumatism for a long time as at present, and will tell you what has done it—Matt J. Johnson's 6088, made in St. Paul—perhaps you know of them, if so give them my love for they have a dandy remedy for the ills that we boys are subject to. Everyone in our family is taking it, and all are feeling better. My wife has been so lame she could hardly get up from her chair, and my back at times gave me lots of trouble. Now we are all feeling better, and will keep a bottle on hand at all times."

This great remedy is sold by the best druggists everywhere. Ask about our free trial. Sold and guaranteed by—

M. K. Swartz, Druggist Brainerd, Minn.

SCIENCE OF FOODS.

Eugene Christian's Plan For Prolonging Human Life.

BASED ON SIMPLE PRINCIPLES

Value of Balanced Diet Explained by the Founder of "Food Science"—How to Derive the Most Nourishment From What We Eat.

By FREDERICK R. TOOMBS.

Food science is a subject that is just now attracting a great deal of attention in many sections of the United States. Its founder, Eugene Christian of New York city, the well known lecturer on diet and health culture and author of "Perfect Health" and "Uncooked Foods," has at the same time been widely talked of as a man who is doing work of tremendous value toward clearing up many of the perplexing dietary problems that confront the public.

Food science paves the way for and will undoubtedly lead to a complete revolution in the manner of living of countless numbers of people. According to eminent authorities, it should have appreciable effect in prolonging human life and in a large measure emancipating people from the use of drugs in the attempted correction of ills resulting from digestive troubles.

The principles on which food science is based are so simple that when they are understood it naturally occurs to a person to wonder why it is that at this late period they are first reduced to an actual science and publicly promulgated.

When asked recently how he accomplished his results Mr. Christian said to the writer:

Naturally my work relates exclusively to the stomach and other organs that assist in the process of digestion and assimilation. The disorders of these organs are caused by errors in eating or drinking.

I study each individual case minutely, taking into consideration the age of the person, temperature, environment, occupation, etc., and then ascertain the specific chemical elements his body requires and in what quantities or proportions.

As the body is composed of fifteen specific chemical elements, all of which are well known to the food chemist, we should take each day such combinations and selections of food as will reproduce these chemical elements in their right proportions. For instance, a man doing ordinary work would need two ounces of protein matter each twenty-four hours. If he should take four ounces habitually he would ultimately have trouble or if

he would only take one ounce he would suffer sooner or later.

The body contains the fifteen different elements arranged all the way from one-half of 1 per cent up to 80 per cent of the whole. The best fed man is the one that can come nearer giving the body all of these chemical elements in the right proportions. The man who gets too fat has fed himself upon an unbalanced diet—too much carbohydrates and albuminoids. The man who is too thin is lacking in these elements and is taking too much protoids, nitrogen, etc. In other words both men feed upon an unbalanced diet.

Mr. Christian has spent almost a life time studying the effect on the human system of practically all foods. At his laboratory in 7 East Forty-first street, New York city, he has the services of a chemist formerly employed under Dr. Wiley in the United States government's experimental chemistry department in Washington, and some of the discoveries resulting from investigations directed by Mr. Christian have done much to illuminate the mooted question of how to derive the most nourishment from what we eat.

One of the fundamental principles of food science is that "chemical harmony" should result from the foods we eat. Chemical harmony in this sense means that the foods, when taken into the system, digest and assimilate harmoniously. There is no conflict between acids and the natural fluids of the digestive organs. No gases or other unnatural poisons result.

So striking have been some of the beneficial results to persons following the tenets of food science that they have dispensed with the services of the family physician to a considerable extent. As a result the physicians in various parts of the United States arose against Mr. Christian and called him a "fakir." The New York County Medical society went further and had him indicted on the charge that he was practicing medicine without a license. Mr. Christian was arrested, tried, and the lower court found him guilty. He appealed to the appellate division of the New York supreme court, and recently the court handed down a unanimous decision reversing the decision of the lower court. The supreme court justices said in part, "As upon the whole case we find that no crime was committed and that the defendant was improperly convicted, the judgment appealed from should be reversed."

In a recent editorial, commenting on the decision in Mr. Christian's favor, Dr. W. R. C. Latson, the editor of Health Culture, spoke in part as follows: "This decision of course quite exonerates Mr. Christian, who deserves not only the congratulations of all fair minded men, but credit for his plucky fight against the 'powers that be.' Each man has the right to select his own medical adviser as he has the right to select his own grocer or carpenter. Only the patient should not be deceived as to the status of his adviser."

CONGRESS OF MOTHERS.

National Convention at Washington Comes to an End.

Washington, March 18.—The feature of the closing session of the National Mothers' congress was the adoption of a series of resolutions, all of which are in the interest of promoting the welfare of the child. The most important of these were an appeal to the various state legislatures to enact legislation to promote and protect every interest of the child; expressing the heartfelt interest and maternal love of the National Congress of Mothers for the childhood of the world; favoring the introduction of a curriculum in the public schools of the country which will prepare the child for parenthood; the importance of making the school education fit the child for the practical duties of life, especially industrial training in the high schools, and to promote co-operation between the home and school.

The next triennial meeting of the National Mothers' congress will be held in this city. Permanent national headquarters will be established here.

Joke on Pain.

Which is the only pain of which every man makes light? The window pane.

RANGE FOR BUFFALO

Plan to Save Remnant of Animals From Extinction.

FEDERAL PRESERVE WANTED

Bill to Be Introduced to Reserve Part of Flathead Indian Lands in Montana—American Bison Association Wants Animals Owned by an Indian Purchased.

A plan is under consideration by President Roosevelt and several members of congress to make certain the future existence of the American bison, popularly known as the American buffalo. William T. Hornaday, director of the Bronx Zoological park in New York city and president of the American Bison association, is co-operating with the president to save the remnant of a tribe of beasts that once numbered its members by the millions. Mr. Hornaday went to Washington recently and had a long interview at the White House with Mr. Roosevelt.

There are buffalo in nearly all of the zoos of the country, but the lives of the confined animals are at best precarious, and no one knows when accident or disease may wipe the captives out of existence. It is the wish of Mr. Hornaday, says a Washington correspondent of the New York Post, that a government range be provided for a herd of buffalo in the northwestern country where they may live in large measure as they lived when their only enemies were the red man and the wolf—a condition of life that made for longevity and for increase.

A few years ago a Flathead Indian named Pablo, living in Montana, had in his possession a herd of 350 buffalo, which he sold to the Canadian government. Most of the animals were turned loose in Canada, where it is said they are thriving. About one-half of them are being held for the Canadian government by the Indian. It is presumed these buffalo will be given their freedom within fence limitations in the near future. Pablo will have remained in his possession about fifty of the animals, the increase since he agreed to sell his herd and some animals that he has picked up recently. The officers of the American Bison association desire that these animals shall be purchased and turned loose on the Flathead Indian reservation in Montana.

Senator Dixon of Montana has become interested in the scheme and will introduce a bill to set aside twenty square miles as a buffalo reserve. The Flathead land holdings are soon to be opened up to settlement, and the land that the government is asked to reserve as a range is almost totally unfit for agricultural purposes. Mr. Hornaday thinks that if such a range is provided the buffalo will double their numbers in three or four years and that the question of the preservation of an animal which supposedly had been doomed to extinction will be solved.

If the Dixon bill becomes a law, the range will be fenced and the buffalo left to themselves to find a living. Naturalists say that this splendid American animal is doomed to extinction unless the animals now in captivity are given the freedom of range and the food and surroundings which were natural to their ancestors before the white man began his war of extermination. The proposed range is said to have every facility for a buffalo preserve. There is an abundance of bunch grass, plenty of running water, ravines which will afford protection in winter and timber enough for shelter under other unfavorable weather conditions.

An appropriation was made by congress last year for the fencing in of a bison preserve in Oklahoma. Fifteen buffalo were turned loose in the preserve, and they are increasing in number and thriving physically. The range is known as the Wichita preserve and is situated in the heart of the country where once great herds of buffalo roamed at their own free will.

When the American Bison association was formed the herd of 250 animals which has been sold to the Canadian government was still in possession of the Flathead Indian, Pablo, but the sale was completed before the association had adopted its constitution or was prepared to begin its work. Many western newspapers criticized the organization for allowing the Canadian government to forestall it in the purchase of these animals. Officers of the association say this criticism was undeserved for the reason that at that time the association was without funds to carry on its work. They say that if the aid now asked of the government is extended it will not be too late to save the American buffalo from extermination.

It is a fact not generally known that there is still in existence a herd of wild bison. Up in the northern part of the province of Saskatchewan there are left a few animals known to the residents of that country as wood buffalo. How many animals there are and what their chances of continued existence are may be put down at best as matters of conjecture. It is the hope of naturalists that the Canadian government may undertake ultimately their protection and preservation. The layman's belief is that the wood buffalo and the buffalo of the plains are different species, but they are not. They are identical except for the fact that the wood buffalo are a little larger than are their southern family members.

BY MORGAN AND OIL TRUST

La Follette Says Recent Panic Was Planned and Executed.

Washington, March 18.—Declaring that the recent financial stringency in the country was brought about by the influence of "Standard Oil" and J. Pierpont Morgan Senator La Follette of Wisconsin, in a speech practically closing the debate on the Aldrich currency bill, entered upon a denunciation of men high in the financial world.

"There were no commercial reasons for a panic," said Mr. La Follette. "There were speculative, legislative and political reasons why a panic might serve special interests. There were business scores to settle, legislation to be blocked, a currency measure suited to the 'system' to be secured, a third term to be disposed of and policies to be discredited."

He severely criticized the provision of the Aldrich bill by which railroad bonds are to be made security for emergency circulation and charged that it was a scheme to defeat legislation which might lower railroad rates.

REPORTED BY ALDRICH.

Amendments to Currency Bill in the Senate.

Washington, March 18.—After speaking for two and a half hours in the senate on the pending currency bill, Senator La Follette asked permission to suspend his remarks and conclude later, as he was unable to continue longer.

Senator Aldrich reported to the senate from the committee on finance amendments to the currency bill exempting railroad bonds from classes of bonds to be used to secure emergency currency, limiting the retirement of such currency and providing that such issues should be permitted up to the par value of bonds used to secure them.

The legislative, executive and judicial appropriation bill was considered and the senate adjourned.

New Trial Asked for Alia.

Denver, March 18.—A motion for a new trial for Giuseppe Alia, the condemned murderer of Father Leo Heinrichs, has been filed by his attorney, Robert H. Widdicombe. It is alleged that Alia was insane when he killed the priest and should have been so declared by the jury. Since the discovery of two weapons in the possession of the prisoner, he is kept under double guard at the county jail day and night.

Position of Racing Cars.

Omaha, March 18.—The relative distances between the New York to Paris racing automobiles is as follows, Carroll, Ia., where the second French car is tied up, being taken as the basing point: Second French car at Carroll; German car at Omaha, 95 miles; first French car at Grand Island, Neb., 251 miles; Italian car, Marston, Wyo., 943 miles; American car, Tecoma, Nev., 1,251 miles.

TELEGRAPHIC BREVITIES.

Cardinal Casali del Drago is dead in Rome. He was born in 1838 and was created cardinal in 1899.

E. W. Gardner of Passaic, N. J., defeated Clarence Jackson of Chicago in the national amateur billiard championship play at Chicago by a score of 400 to 260.

Before a crowd that filled the big Auditorium at Omaha, "Farmer" Burns won from Fred Beell of Wisconsin, taking the first and third sets. The two men were very evenly matched.

MARKET QUOTATIONS.

Chicago, March 17.—Cattle—Beaves, \$4.30@6.35; cows and heifers, \$2.00@5.35; Texans, \$4.10@4.90; calves, \$5.00@6.75; Western cattle, \$4.00@5.00; stockers and feeders, \$3.00@5.00. Hogs—Light, \$4.50@4.80; mixed, \$4.50@4.85; heavy, \$4.50@4.85; rough, \$4.50@4.60; pigs, \$3.90@4.45. Sheep—\$4.05@6.50; yearlings, \$5.75@6.00; lambs, \$5.75@7.50.

Chicago Grain and Provisions.

Chicago, March 17.—Wheat—May, 95½¢; July, 90½¢; Sept., 87½¢. Corn—May, 66½¢; July, 63½¢; Sept., 62¢@62½¢. Oats—May, old, 54¢; May, 52½¢; July, old, 47½¢; July, 46¢; Sept., 38¢. Pork—May, \$12.27½; July, \$12.67½. Butter—Creameries, 24½¢@28½¢; dairies, 20½¢@26½¢. Eggs—14½¢. Poultry—Turkeys, 14¢; chickens, 11½¢; springs, 12½¢.

HUGE OCEAN LINERS.

Lewis Nixon Predicts Vessels Quarter of a Mile Long.

FOREIGNERS TO BUILD THEM

Ships of Next Generation Will Have Trolley Lines on Deck and Moving Sidewalks, Says American Shipbuilder—Newspapers, Vaudeville and Opera to Amuse Seagoers.

Lewis Nixon, the American shipbuilder, who was recently interviewed by a representative of the New York Evening World, made the following prediction concerning the future ocean steamer:

A generation from now will see vessels far longer than any contemplated now, even though 1,000 foot vessels are projected by the White Star line.

If one will consider, a vessel is a great floating girder, and in order to extend the length and breadth we must extend the depth. This means deeper draft, and, as vessels are built to make money, we must have terminal facilities to admit the greater draft. Today we can see a channel to the wharfs of New York city of forty feet. No doubt deeper drafts can be utilized abroad, and, as vessels will lighten very much in coming over, a heavy import cargo could be carried and the vessel leaving New York take only such a cargo as will permit a safe departure.

To get great power we can go to multiple screws, but there is a limit even to this. Except at vast expense, I do not believe harbors can be prepared for vessels over a quarter of a mile, or 1,200 feet, long, for I do not expect the general shape of vessels to be subject to radical alteration.

A serious question even now affecting navigation in New York harbor is that a small sailboat bent on keeping the right of way can interfere with the movements, possibly disastrously, of a vessel costing millions.

We can accept as an axiom in water borne freight that the cost, other things being equal, is about inversely as the draft on which it is carried. Naturally, then, we shall want to utilize the deepest draft possible, and therefore we shall see vessels built of as deep draft as possible.

The larger the vessel the less proportionate power is required to drive her at any given speed. So we gain in economy of speed production and in economy of freight carrying by building the larger vessel.

A few years ago we could not build bigger vessels on account of the man driven rivet. Now we drive rivets by power. So far as structural limitations are concerned, there is nothing to prevent our floating and propelling at sea any sized structure that is demanded.

I believe, too, that we can launch any sized vessel, but the proportionate cost of launching will increase rapidly with great sizes. Great vessels must be kept going, and long detentions in port must be avoided, so the vessels must be discharged and loaded rapidly, though the express boat, increasing in size and proportionately in speed, will carry, as today, practically no freight.

In my mind's eye I can see the great cargo vessel landing below the Narrows and the great plain extending from the hills of Staten Island to the lower bay a great freight receiving depot, filled with railroad tracks and warehouses and facilities for handling freight. There will be a breakwater or protection of some sort about in line with Swinbourne island, and inside of this, in a great dock space dredged to about 100 feet, will be wharfs to accommodate the vast freight brought by the deepest vessels.

Newport News will probably be the other deep water harbor of the Atlantic coast.

Great docks can be built at New York under far better conditions than at London, for example, as the rise and fall of the tides there require regular dock gates, through which vessels pass only at high tide. In New York we have only enough tide to scour out our harbor twice a day, so vessels can load or discharge at any stage of the tide.

It pleases the fancy to speculate as to the creature comforts to be found on great ships. Of course there will be the daily paper, the stock ticker and the cable office, afternoon concerts, the vaudeville and the opera. Freed from Piles THE JOY OF IT.

The utter misery and despair of the sufferer from piles or hemorrhoids can never be described. Not only the intense itching and stinging, not only the dread of a surgical operation, but the whole system seems to be undermined by this horrible disease.

The joy which cured ones experience on being freed from itching, bleeding and protruding piles is told in thousands of letters received in regard to

Dr. A. W. Chase's Ointment

You need not tell the writers of these letters that there is a case of piles which Dr. A. W. Chase's Ointment will not cure, for they will not believe it. They alone know how they suffered, and also know that this ointment cured them. It brings relief at once. 50 cts. a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mr. John Auer, East 5th St., Marysville, Ohio, states:

"For twenty years I could get no relief from itching piles, either from doctors' or other treatments. One box of Dr. A. W. Chase's Ointment positively cured them, to stay cured and the relief and comfort is too great to be described."

H. P. Dunn, Druggist
